

Integrated Chemistry and Physics: What the Technician Needs to Know

By C. Lon Enloe, Elizabeth Garnett, Jonathan Miles

John Wiley and Sons Ltd, United States, 2001. Paperback. Book Condition: New. 276 x 214 mm. Language: English . Brand New Book. This is an introductory book that provides students with the tools to master the basic principles of physics and chemistry needed by the aspiring technology professional. Like all the books in the critically acclaimed Preserving the Legacy series, each chapter is divided into subsections featuring learning objectives and a Check Your Understanding section to help students focus on important concepts. Questions requiring written and mathematical answers at the end of each chapter provide students with the opportunity to further demonstrate their understanding of the concepts. The only book available that specifically addresses the emerging need for a course to teach physics and chemistry principles to the growing number of students entering the various fields of technology, it offers a thorough grounding in foundational concepts along with Technology boxes that offer practical applications. Physical Science: What the Technology Professional Needs to Know features: * Crucial topics such as measuring systems, matter, energy, motion, electricity and magnetism, electromagnetic radiation, nuclear radiation and reactions, and chemical reactions and solutions * Integrated coverage linking specific concepts to everyday applications * An extensive...
