Summary: "This is a book for everyone - for our patients, healthcare professionals and the general public. The issues surrounding stigma are raised without underestimating complexity, while still making the concepts understandable. It challenges us to find ways to ensure that they realize the same rights and entitlements that the rest of us take for granted. It compels us to actively seek avenues of redress through multi-disciplinary and multi-sectoral activities that combine best practices in research with best practices in social advocacy and social change. This is a must-read for professionals and practitioners alike. - Professor Heather Stuart, Department of Psychiatry,...
