Brand New Book ***** Print on Demand *****.Excerpt from Diseases of the Organs of Respiration, Vol. 1 of 2: A Treatise on the Etiology, Pathology, Symptoms, Diagnosis, Prognosis, and Treatment of Diseases of the Lungs and Air-Passages Medical works have to a great extent, in recent years, taken the form of collections of essays on special subjects by different authors. This has its advantage, for such sub-division of labour is the obvious and easy way of dealing with the ever-increasing mass of medical literature. Yet these composite productions, even where they gain in literary completeness, lose what is of at least equal importance, the individuality and consistency which a single writer gives to his work. In no department of medicine has the progress of science and the growth of literature been more rapid than in that which forms the subject of this treatise, and it may seem rash for an author to attempt to deal with it single-handed. Lightened as the labour is by the many complete monographs recently written on special parts, the task is still a heavy one. Time alone, if nothing else, would have brought this fact home to me, for many years have been spent upon the work beyond the time originally allotted to it. Still, I do not regret the delay, for it has enabled me to write from a wider experience, and to put to a longer test the conclusion on disputed points to which I had been led. The part which bacteria play in the production of disease and its symptoms, and the complications resulting from mixed infections, have altogether changed our conception of morbid processes. The progress of knowledge in this field of research has been...
