*This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.*

## VOYAGE EN ORIENT

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. LC Number: KF26 . B39 2009t OCLC Number: (OCoLC)603676771 Subject: Sustainable development -- Economic aspects -- United States. Excerpt: . . . populated areas and alternative modes of transportation. But our communities are growing and changing and too often, our approach to community development policy has been like one of those cars on the Merritt Parkway in Connecticut, trapped in gridlock, never moving. It is time to rethink the way we plan the futures of the places in which we live, work, and raise our families. Between 1980 and 2000, the growth of the largest 99 metro areas in the United States consumed 16 million acres of rural land. That is about an acre for every new household. With new population expected to grow by over 150 million people between 2000 and 2050, this land-use trend simply cannot continue for all the obvious reasons. Before today, Federal policy has often treated transportation, housing, and environmental protection as separate issues, distinct from each other. But that system of stovepiping simply isnt working and the consequences of failing to address the way we plan our communities growth are many. We will continue to lose our rural land and open spaces. We will see a worsening of the traffic congestion that has tripled over the last 25 years. We will continue to pay more and more at the pump at a time when our family budgets are already stretched to the max. We will continue to push low- income families further away from job opportunities. We will continue to increase greenhouse gas emissions despite the urgent threat of climate change. In February, I wrote a letter to President Obama urging him to establish a White House Office of Sustainable...
